**"Though I do not believe that a plant will spring up where no seed has been, I have great faith in a seed... Convince me that you have a seed there, and I am prepared to expect wonders."
— Henry David Thoreau**

Spring is in the Air!

Add a littlSpring, also known as springtime, is one of the four temperate seasons, succeeding winter and preceding summer. There are various technical definitions of spring, but local usage of the term varies according to local climate, cultures and customs. When it is spring in the Northern Hemisphere, it is autumn in the Southern Hemisphere and vice versa. At the spring (or vernal) equinox, days and nights are approximately twelve hours long, with daytime length increasing and nighttime length decreasing as the season progresses until the Summer Solstice in June (Northern Hemisphere) and December (Southern Hemisphere).

Spring and "springtime" refer to the season, and also to ideas of rebirth, rejuvenation, renewal, resurrection and regrowth. Subtropical and tropical areas have climates better described in terms of other seasons, e.g. dry or wet, monsoonal or cyclonic. Cultures may have local names for seasons which have little equivalence to the terms originating in Europe.

Upcoming Events

Solar Eclipse 2024

Monday, April 8, 2024

A total solar eclipse will take place on Monday, April 8, 2024, visible across North America and dubbed the Great North American Eclipse by some media. A solar eclipse occurs when the Moon passes between Earth and the Sun, thereby obscuring the image of the Sun for a viewer on Earth.

Spring Fling/Community Block Party

Saturday, April 20, 2024
